The Occupier

Important – Desborough One Way System & Parking Restriction Proposals

Dear Sir / Madam,

Proposed one way system and parking changes in your area

Northamptonshire Highways have been commissioned by Desborough Town Council to consult a proposal to implement a one way system on Gladstone Street and Nichols Street in Desborough. The proposed one way system was requested following safety concerns raised by the residents of Desborough to both the Town Council and Northamptonshire Highways regarding dangerous movements of vehicles due to insufficient road space on the above mentioned streets.

In order to facilitate the proposed one way system, necessary changes will need to be made to the existing parking restrictions in the area to ensure the movement of all vehicles can be accommodated and visibility at junctions is not restricted.

As part of the design process a review of all existing waiting restrictions on Gladstone Street and Nichols Street has been undertaken. Any lines deemed no longer necessary have been included for removal within the proposals to offset the loss of parking created by the new restrictions.

This initial consultation is being conducted to understand how these proposals may affect you before progressing the Traffic Regulations Orders. I have attached the consultation plan (drawing number S2761/17/001) showing the proposed one way system and necessary lining changes.

Should you wish to comment on the proposals please contact me at mbarratt@kierwsp.co.uk by 10th December 2021. Alternatively you can contact me on the number above or in writing to the following address.

Brixworth Depot, Old Harbour Road, Brixworth, Northants NN6 9BX

Yours faithfully,

Matthew Barratt
